OBJECTIVE

Aspiring Java Developer with a strong foundation in Spring Core, MySQL, and frontend development. Passionate about building efficient, scalable applications and contributing to impactful software projects. Seeking a full-time role to leverage my technical expertise and drive innovation.

EDUCATION

Maharshi Dayanand University — Rohtak
Masters of Computer Applications (MCA) | Grade: 8.92/10* — *Aug 2023 – June 2025*

University of Delhi — New Delhi
BSc (hons) Computer Science | Grade: 8.47/10 — *Nov 2020 – July 2023*

Holy Child Public School — Faridabad
Higher secondary(PCM) | Score: 93.2 — *2018 – 2020*

Holy Child Public School — Faridabad
Secondary | Score: 94.8 — *2018*

EXPERIENCE

Website Design Intern — Feb 2024 – March 2024
Hobics — *remote*
- Assisted in the design and layout of the company's website using HTML and CSS, enhancing user experience and visual appeal while ensuring brand consistency.
- Skills : Design Concepts, HTML, CSS, Communication

Data Science Intern — Aug. 2023 – Sep. 2023
Oasis Infobyte — *Remote*
- Utilized Python programming language for data manipulation, model development, and visualization.
- Applied machine learning techniques for accurate predictions and insightful data interpretations.
- Skills : Machine Learning, Data analysis, Python, Jupyter Notebook

PROJECTS

Personal Portofolio Website | *HTML, CSS, Bootstrap, Github*
- Designed and developed a personal portfolio website to showcase my skills and projects.
- Leveraged HTML, CSS, and Bootstrap for the front-end, ensuring a responsive and visually appealing user experience.
- Deployed the website using GitHub for seamless accessibility.

Electricity Billing System | *Java, AWT/Swing, JDBC, MySQL, Visual Studio*
- Created separate modules allowing the admin to add/update customer details and manage billing information, while customers could view billing details and make payments.
- Implemented JDBC for seamless interaction with the MySQL database, ensuring efficient data storage and retrieval.
- The coding was done on Visual Studio Code, ensuring a streamlined development process.

Payroll Management System | *Java, AWT/Swing, JDBC, MySQL, Visual Studio*
- Implemented a modular design for managing employee records, ensuring robust data storage, retrieval, and security while enhancing system maintainability.
- Implemented using Java, JDBC, and MySQL, enabling seamless CRUD operations for employee data and automating salary calculations for accuracy and efficiency.

TECHNICAL SKILLS

Tech stack: Java, Oracle PL/SQL, Bootstrap, HTML/CSS, JavaScript, C/C++, Python, JDBC
Developer Tools: Visual Studio Code, Eclipse, Jupyter Notebook, Google Collab

CERTIFICATES

Udemy- PL/SQL Beginner to Advanced

Udemy- Machine Learning and Data Science with Python
